

# Key Information Document

## Purpose

This document provides you with key information about this investment product, which can be linked to an insurance contract. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

### Mandatum Private Debt III Plus investment basket

PRIIP manufacturer Mandatum Life Insurance Company Limited (Mandatum Life), ISIN:QZ4000007436  
<https://www.mandatumlife.fi/>

For further information, call +358 200 31100 (lnc/mnc). Regulated by the Finnish Financial Supervisory Authority (FIN-FSA). Release Date: 30/04/2019 (Stressed Scenario revised: 03/01/2022)

**You are about to purchase a product that is not simple and may be difficult to understand.**

## What is this product?

**Type:** The investment basket, which is an investment product specified by the insurance company, to whose value development the value of the insurance can be tied. The investment basket cannot be acquired separately; it is part of unit-linked insurance.

**Objectives:** The Investment Basket's assets are primarily invested in unlisted debt that may be secured or unsecured. The Underlying Assets are mainly debt issued by companies in private debt arrangements or other debt. The Investment Basket's assets can be invested either directly or through selected funds. Investments in Underlying Assets taking the form of funds are made as the funds make capital calls to their investors.

**Intended Retail Investor:** The investment basket suits investors who are seeking the possible high returns associated with high-risk alternative investments and are ready to take the risk of losing the capital and possible return in part or in full. The investor must have the opportunity to hold on to his or her investments until the termination of the investment basket as the liquidity resulting from the investment basket's investments' asset class is extremely limited. The investor must not be dependent on the liquidity of the investment he or she has made.

**Product term:** The recommended investment period is at least 7 years. This product's termination takes place as described in the product's rules. The insurance company has a unilateral right to cancel the investment basket without a specific reason by informing the customer of the cancellation within a reasonable amount of time.

## What are the risks & what could I get in return?

The risk indicator gives a picture of how this product's risk level relates to the risk level of other products.

*The risk indicator assumes you keep the product for 7 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell or end your product easily or you may have to sell or end at a price that significantly impacts on how much you get back.*

According to PRIIPS regulation, this product's risk level is 2 out of 7, which is a medium-low risk class. The Investment

Basket does not have capital protection. The value of investment objects may increase or decrease. The Investment Basket has limited liquidity associated with high-risk alternative investments and a very high return risk and capital risk. Return risk and capital risk mean that investors may lose the capital that they have invested as well as the returns in part or in full.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## What are the risks & what could I get in return? (continued)

### Performance Scenarios

Scenarios	1 Y	4 Years	7 Years*
<b>Stressed Scenario</b>			
What you might get back after costs	8,662.01€	8,365.90€	7,569.73€
Average return each year %	-13.38	-4.36	-3.90
<b>Unfavourable Scenario</b>			
What you might get back after costs	10,166.03€	11,689.85€	13,658.11€
Average return each year %	1.66	3.98	4.55
<b>Moderate Scenario</b>			
What you might get back after costs	10,648.89€	12,805.59€	15,399.08€
Average return each year %	6.49	6.38	6.36
<b>Favourable Scenario</b>			
What you might get back after costs	11,100.50€	13,961.38€	17,280.24€
Average return each year %	11.01	8.70	8.13

\*recommended holding period

This table, according to the PRIIPS regulation, shows the money you could get back over the next 7 years, under different scenarios, assuming that you invest 10,000.00 €.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before 7 years. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so.

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## What happens if Mandatum Life is unable to pay out?

The product is not covered by the Investors' Compensation Fund or the Deposit Guarantee Fund. The investor may lose all or part of return and the capital he or she has invested in the investment basket. If the insurance company is placed in liquidation or bankruptcy, the interests of the policyholders are secured such that all insurance receivables, regardless of the insurance class and line, hold first preference to all of the company's assets during the company's liquidation and bankruptcy above all other receivables targeted at the company.

### What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The table shows what the costs, including potential exit penalties, could mean for different holding periods. The figures assume you invest 10 000€. The figures shown are partially based on data from the past and therefore may change in the future.

#### Costs Over Time

Investment Scenarios 10,000.00€	If you cash in after 1 Y	If you cash in after 4 Years	If you cash in after 7 Years*
Total cost €	229.89	1,142.74	2,489.40
Impact on return (RIY) per year %	2.30	2.30	2.30

\*recommended holding period

## What are the costs? (continued)
